Re: Inventories of Injection Wells for the Central, Finger Lakes, and Palisades Regions
Docket No. SDWA-UIC-IR-14-001

Dear Mr. McKenna,

Your letter dated November 28, 2013, from EPA Region II requested that the New York State Office of Parks, Recreation & Historic Preservation (OPRHP) submit a complete inventory of Class V Underground Injection Control (UIC) wells in facilities operated by OPRHP. Your subsequent correspondence requested that OPRHP submit the remaining inventories as they become available. OPRHP has submitted the inventories for the Saratoga, Allegany, Genesee, New York City, Niagara, Taconic, and Thousand Islands regions, as well as those for five facilities in the Long Island region.

Attached you will find inventories for the facilities that contain Class V wells in OPRHP's Central, Finger Lakes, and Palisades regions as well as descriptions of the facilities that do not contain any Class V systems.

We will send information for the remaining facilities on Long Island as it becomes available. Thank you.

Very truly yours,

Andy Beers
Executive Deputy Commissioner

MEMORANDUM

June 6, 2014

To: Darci Frinquelli, Counsel's Office, OPRHP
From: James Hall, Executive Director *James Hall*
Subject: US EPA Injection Well Compliance for Palisades Region

The following Park/Historic Site facilities in the Palisades Region that do not have Class V injection wells as provided on our EPA UIC Form 7520-16. Sewage disposal at these facilities is provided as follows:

The following parks have no sewage disposal:

- Blauvelt State Park
- Storm King State Park
- Franny Reese State Park

The following parks / sites connect to a municipal sewage system:

- Kings Highway Gas Station
- High Tor State Park
- Nyack Beach State Park
- Knox's Headquarters State Historic Site
- National Purple Heart Hall of Honor
- New Windsor Cantonment State Historic Site
- Senate House State Historic Site
- Washington's Headquarters State Historic Site

The following parks / sites connect to municipal sewage or have homes with a residential septic:

- Tallman Mountain State Park
- Sterling Forest State Park

The following parks / sites have homes with a residential septic:

- Goosepond Mountain State Park
- Highland Lakes State Park

- Lake Superior State Park
- Schunnemunk State Park
- Bristol Beach State Park

The following park has homes with a residential septic and Clivus Multrum Composting Toilets for public bathrooms:

- Minnewaska State Park Preserve

Inventory of Injection Wells
Additional Facility Information
Rockland Lake State Park

Description of Facility: Park and Golf Course. Public Restrooms on the fairways of the golf course and bathrooms in a day school. Uses include various public outdoor recreational activities (picnicking, hiking, etc.).

Use of Injection Wells: Two Comfort Stations and bathroom in a building with Men's & Women's restrooms, with subsurface outfall to separate septic systems.

Type of Waste: Sanitary sewage

Inventory of Injection Wells
Additional Facility Information
Stony Point Historic Site

Description of Facility: Historic Site. Public Restrooms on the site and bathrooms in the museum. Uses include limited outdoor recreational activities (scenic vistas and historic structures, etc.).

Use of Injection Wells: One Comfort Station and bathroom in a building with Men's & Women's restrooms, with subsurface outfall to separate septic systems.

Type of Waste: Sanitary sewage

Inventory of Injection Wells
Additional Facility Information
Harriman State Park

Description of Facility: Park and Group Camps. Public Restrooms in various park areas and bathrooms in various group camps. Uses include various public outdoor recreational activities (picnicking, hiking, etc.).

Use of Injection Wells: Two Comfort Stations and bathroom in a building with Men's & Women's restrooms, with subsurface outfall to separate septic systems.

Type of Waste: Sanitary sewage

Inventory of Injection Wells
Additional Facility Information
Bear Mountain State Park

Description of Facility: Park Employee Housing

Use of Injection Wells: Four park homes with common septic with subsurface outfall.

Type of Waste: Sanitary sewage

Inventory of Injection Wells
Additional Facility Information
Fort Montgomery Historic Site

Description of Facility: Historic Site. Public Restrooms in the museum. Uses include limited outdoor recreational activities (scenic vistas and historic structures, etc.).

Use of Injection Wells: One set of public bathrooms in museum building with Men's & Women's restrooms, with septic systems to subsurface outfall.

Type of Waste: Sanitary sewage
